CCRC / Subsidized-Care Information

- The rates on this public rate sheet apply equally to private-pay and CCRC families. Reimbursement is limited to written authorization and applicable program rules.
- CCRC families are not required to pay the holding deposit while enrollment is being processed through CCRC.
- The registration fee will be submitted to CCRC when allowable. If CCRC does not approve or pay the fee, the parent is responsible for payment before care begins.
- CCRC pays only approved dates, hours and rates. Parents are responsible for assigned family fees, copayments, late-pickup fees and other permitted non-covered charges.
- Parents and the Provider must record actual arrival, departure and absence information and meet all submission deadlines.
- Parents must promptly report changes to employment, school, eligibility or the care schedule. Requested care is not guaranteed until written authorization is received.

This rate sheet is effective until replaced by a later written public rate sheet. All care is governed by the signed Parent-Provider Agreement and applicable CCRC authorization.
